

Fermenter's Choice Stainless Ltd.

Variable Capacity Tanks

Fermenter's Choice Stainless Ltd.

Variable Capacity Tanks

The floating lid design allows flexibility to fermentation volumes while minimizing air contact.

Available as:

Red fermenters with a bottom cleanout door and optional side racking door

White fermenters with an optional side racking door

Heating / Cooling Jacket surface areas are maximized to provide optimum heating and cooling abilities.

Features

- 304/316 Stainless Steel
- 2B Interior/Exterior finish
- Polished finish available
- Sloped Floor
- Racking valve
- Optional side racking door
- Optional bottom cleanout door
- Sample Valve
- Thermowell with Thermometer
- Hand operated air pump
- Leg height customizable

Variable Capacity Dimension Data					
Capacity		Shell Diameter	Shell Height	Total Height	Total Height
HL	Gal	mm	mm	mm	ft
20	530	1320	1500	2200	7'3"

Variable Capacity Tanks

Fermenter's Choice Stainless Ltd.

25 HL 650 Gallon Variable Capacity

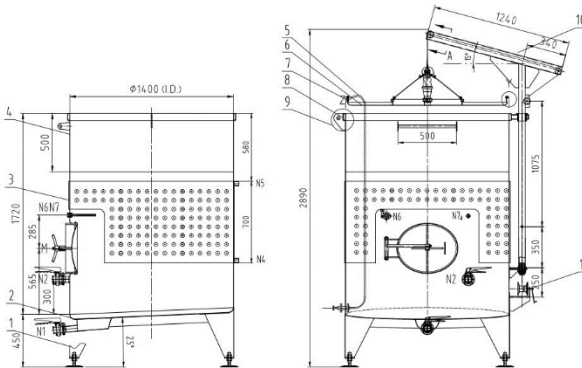

2,500 Litre Tank

- For white fermentation
- Heating / cooling jacket
- Fittings tri-clover, valves butterfly style or as customer specified

Features

- 304 Stainless Steel
- 2B Interior/Exterior finish
- Polished finish available
- Sloped Floor
- Drain valve 51mm; 2"
- Racking valve 51mm; 2"
- Side racking door
- Sample Valve
- Thermowell with Thermometer
- Floating lid with inflatable seal
- Hand operated air pump

Dimensions

Height: 2.9 m; 9'6"

Diameter: 1.4 m; 4'7"

Ground to tank: 0.45m; 18"

Custom leg height available

Fermenter's Choice Stainless Ltd.

35 HL 930 Gallon Variable Capacity

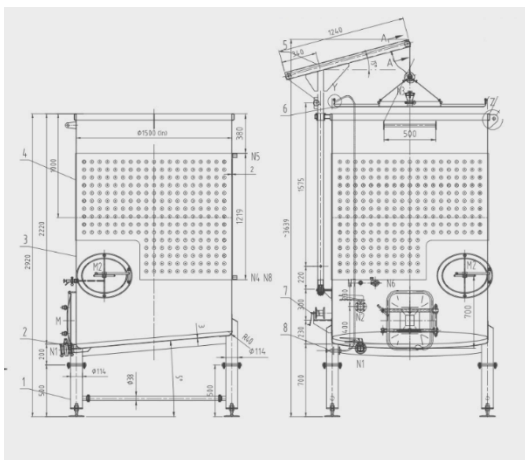

3,500 Litre Tank

- For red or white fermentation
- Heating / cooling jacket
- Fittings tri-clover, valves butterfly style or as customer specified

Features

- 304 Stainless Steel
- 2B Interior/Exterior finish
- Polished finish available
- Sloped Floor
- Drain valve 76mm; 3"
- Racking valve 51mm; 2"
- Side racking door
- Sample Valve
- Thermowell with Thermometer
- Optional bottom rectangular door
- Floating lid with inflatable seal
- Hand operated air pump

Dimensions

Height: 3.64 m; 12'

Diameter: 1.5 m; 4'11"

Ground to door: 0.7m; 27"

Custom leg height available

Fermenter's Choice Stainless Ltd.

50 HL 1320 Gallon Variable Capacity

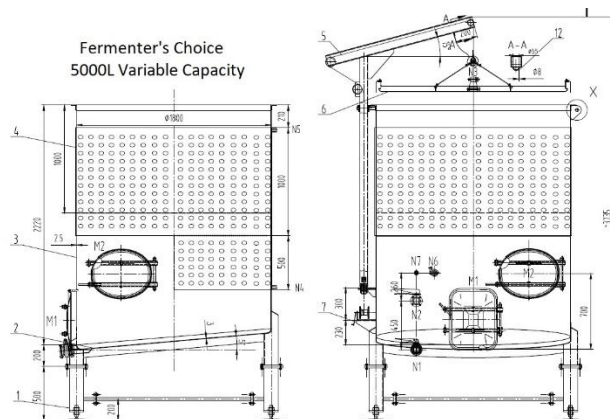

5,000 Litre Tank

- For red or white fermentation
- Heating / cooling jacket
- Fittings tri-clover, valves butterfly style or as customer specified

Features

- 304 Stainless Steel
- 2B Interior/Exterior finish
- Polished finish available
- Sloped Floor
- Drain valve 76mm; 3"
- Racking valve 51mm; 2"
- Side racking door
- Sample Valve
- Thermowell with Thermometer
- Optional bottom rectangular door
- Floating lid with inflatable seal
- Hand operated air pump

Dimensions

Height: 3.75 m; 12'4"

Diameter: 1.8 m; 5'11"

Ground to door: 0.7m; 27"

Custom leg height available

Fermenter's Choice Stainless Ltd.

70 HL 1900 Gallon Variable Capacity

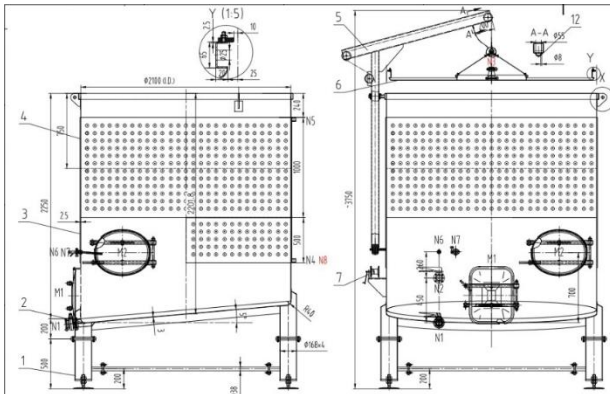

7,000 Litre / 1900 Gallon Tank

- For red or white fermentation
- Heating / cooling jacket
- Fittings tri-clover, valves butterfly style or as customer specified

Features

- 304 Stainless Steel Shell
- 316 Stainless Steel Lid
- 2B Interior/Exterior finish
- Polished finish available
- Sloped Floor
- Drain valve 76mm; 3"
- Racking valve 51mm; 2"
- Side racking door
- Sample Valve
- Thermowell with Thermometer
- Optional bottom rectangular door
- Floating lid with inflatable seal
- Hand operated air pump

Dimensions

Height: 3.75 m; 12'4"

Diameter: 2.1 m; 6'11"

Ground to door: 0.7m; 28"

Custom leg height available
